FLOOR CARE HOSE PRODUCTS

PRODUCT	SIZE	TEMP RANGE	DESCRIPTION	Carpet Cleaning and Scrubbers
Genesis®				
• STM	1 1/2", 2"	-40° to 160°	<i>Carpet Cleaning Hose:</i> Polyethylene copolymer hose reinforced with an integral polyethylene helix. Ideal for both truck mounted and portable carpet cleaning units. Smooth interior, very flexible, superior abrasion resistance and crush resistant. All sizes can handle a full vacuum and come standard with poly welded cuffs on each end. Standard color is orange or blue. Other colors available.	
• Uni-Loop	1" to 2"	-40° to 140°	<i>Lightweight Vacuum Cleaner Hose:</i> Lightweight polyethylene copolymer hose reinforced with an integral polyethylene helix. Superior external abrasion resistance and smooth interior. Economical and ideal for lightweight vacuum applications. Standard color is gray. Other colors available.	Lightweight Commercial Vacuum
• Flx Plus	1 1/2" to 2"	-40° to 140°	<i>Industrial Vacuum Cleaner Hose:</i> Polyethylene copolymer hose reinforced with an integral polyethylene helix. High abrasion resistance and the smooth interior assures efficient air flow. Ideal for wet or dry vacuum in car wash, commercial and industrial applications. Crush resistant and all sizes handle a full vacuum. Standard color is gray. Other colors available.	Industrial Vacuum

PRODUCT	SIZE	TEMP RANGE	DESCRIPTION	Commercial and Industrial Vacuum
Dayflex®				
• MG-V	3/4" to 2"	-10° to 160°	<i>Vacuum Cleaner Hose:</i> PVC hose reinforced with a vinyl coated spring steel wire helix. Lightweight, flexible and good chemical resistance. Ideal for floor care industry and home & industrial vacuum. Available in a stretch version (MG-Stretch). Standard color is gray. Cuffs and other colors available.	
• MG-Stretch	3/4" to 2"	-10° to 160°	<i>Vacuum Cleaner Hose:</i> PVC hose reinforced with a vinyl coated spring steel wire helix. Lightweight with a 3 to 1 stretch ratio. Very flexible, abrasion and chemical resistant. Ideal for central vacuum systems or vacuum applications where storage space is limited. Also available in higher stretch ratios. Standard color is black. Other colors available.	

PRODUCT	DESCRIPTION	Industrial Vacuum
Vacuum Belts	Belts are custom engineered and manufactured from neoprene or isoprene in widths from 0.250" to 0.875" widths and diameters up to 7.0". They are suitable for vacuum cleaners and sweepers. These belts can be matched to OEM requirements for tension, flexibility and life expectancy. Tested to ASTM F555, they can be packaged for the appliance aftermarket.	

PRODUCT	DESCRIPTION	Accessories
Floor Care Accessories		
• Cuffs & Connectors	Screw cuffs: Threads on the end of hoses to provide easy attachment. Poly weld cuffs: Permanently welded to the end of the hose to provide an air tight seal. Connectors: Threads on end of hoses to provide easy connection. 90° connectors are also available. Over molding assemblies: Injection molded over the hose to provide hermetic seal.
