Specify Colson Trans-forma™ and keep your competitors on the ropes!

- Colson Trans-forma wheels feature a high-performance design that combines the best characteristics of hard and soft wheels into a single, multi-purpose wheel
- Like hard tread wheels they are exceptionally durable and roll easily
- Like soft tread wheels they glide quietly, protect floors and provide a shock-resistant cushion ride
- Extremely durable thermoplastic elastomer tread chemically bonded to a sturdy polyolefin core
- Environmentally friendly design is constructed of recyclable materials
- Developed utilizing FEA analysis software and validated with physical testing
- Co-injection molded on our state of the art equipment to reduce manufacturing cost
- Made in the USA to give you shorter lead times and predictable, on-time delivery

Colson Trans-forma™ HD

If you are looking for a low-cost replacement for polyurethane... look no further. This engineering miracle is non-marking and offers good ergonomic performance. Plus, it does not break down in water/steam and it does not squeak like polyurethane wheels. Since it is made in the USA, the lead times are much better than competitive wheels. The multi-purpose design is well suited for a variety of applications including (but not limited to): food Processing, poultry processing, dairy carts, laundry carts, and in-plant mobility equipment.

Colson Trans-forma™ HD Flat Tread Wheels • Capacity to 900 lbs
